

AGRICULTURAL CONTROL SOLUTIONS

CS 2005

Our copper sulfate pentahydrate in-solution formula is **OMRI-listed** with systemic capabilities and has proven results combating disease in copper-resistant strains! It's environmentally friendly by using less than an 1/8 lb per acre of metallic copper specifically designed to combat diseases in Avocados including: *Anthraco*se, *Blotch* and *Scab*.

Evaluation of the Biological Effectiveness of Magna-Bon **CS 2005** for the Control of Anthracnose in Avocado Evaluated Pathogen

University of Puebla, Science Institute. Dr. Manuel de Huerta Lara

CONCLUSIONS

CS 2005 at dosages of 300, 400 and 500 mL / 100 L of water, successfully controlled anthracnose after 3 consecutive applications at 7 day intervals, achieving levels of efficacy of 94% to 99% and maintaining good control during the last assessment conducted.

Note: US label rate is equal to 1 to 2 Quarts per 100 Gallons of water per acre.

Less Copper, More Power!
