

CS 2005

Our copper sulfate pentahydrate in-solution formula is **OMRI-listed** with systemic capabilities and has proven results combating disease in **copper-resistant strains**! It's environmentally friendly by using less than an 1/8 lb per acre of metallic copper specifically designed to combat agricultural diseases for a variety of specialty fruits, vegetables, citrus and tree nuts!

Walnut Blight Research Trials

Research performed by Dr. Jim Adaskeveg - UC Riverside, inoculated walnut trees with **copper resistant strains** of Walnut Blight.

Less Copper, More Power!
